Sub: Proposal for training GenAI Ready Naaris under Nimaya

Dear Madam,

Thank you for your interest and encouragement towards our initiative.

Please find a proposed MOU to extend the association between **Nimaya - Foundation For Future Ready Naari** and your prestigious institution. The aim of this collaboration is to work with your students to make them future-ready professionals armed with essential 21st-century workplace and GenAI.

The main objective of our proposed project is to enable girls with socio-economic barriers to build aspirational careers by endowing them with 21st-century workplace and GenAI skills like problem-solving, critical thinking, entrepreneurial mindset, and emotional intelligence among others over the course of 4-6 weeks. The project will be delivered in-person and will include activities and projects like workplace simulation, training an AI chatbot and workshops that seek to enhance GenAI and soft skills. The program will include virtual Masterclasses to provide placement training and support.

We are sure that this approach will help us build on the success of the program and enable students to reach their career goals in a much more effective manner.

We look forward to a long and successful partnership with you.
